

## Perfect for Industrial Floors

High traffic industrial floors require regular cleaning for cleanliness and safety. Commercial floor scrubbers can make the job quicker but require the right cleaning chemistry. Choosing the right **Chemtrol®** floor cleaners will improve floor life, employee safety, and customer visits.

- **Concrete / Sealed Concrete**
- **Painted floors**
- **Tiles, Marble, Granite**
- **General Surface Cleaning**

### **DYNAMATIC**

- **Use on unsealed concrete floors**
- Aggressive, Heavy Duty-All Purpose Floor Cleaner
- Concentrated liquid alkaline cleaner designed for difficult industrial cleaning applications
- Optimized blend of emulsifiers for cleaning particulate and oily soils leaving a slip free finish

pH @ 1% - 10.2 | Usage: 2-10% by vol H2O

### **SUPERGREEN**

- **Heavy Duty-All Purpose** Cleaner for a variety of applications
- Concentrated liquid alkaline cleaner with emulsifying agents for heavy duty cleaning
- More foam than Dynamatic

pH @ 1% - 10.6 | Usage: 2-10% by vol H2O

### **GPC**

- Use on concrete, sealed concrete and tile floors
- **Medium Aggressiveness**, Floor cleaner
- Medium foaming hard surface cleaner ideal for oily soils
- Safe for food contact surfaces followed by a rinse

pH @ 1% - 10.5 | Usage: 2-10% by vol H2O
